Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The amendment filed 12/10/01 has been entered.

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Election/Restrictions

3. Applicant's election without traverse of claims 4-19 in the reply filed on 8/5/04 is acknowledged.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 4-11 and 17-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 4 recites "a track" in line 2 and "a track" in line 10. Are these the same track? Claims 9 and 17 recite "one opening" and "an opening". How do these openings relate to the "opening" in claims 4 and 12?

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3651

7. Claims 4-8 and 12-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Pioch. Pioch discloses a materials handling system that includes a rail car with a chassis (18) and a stabilizer (62) that travels on a track (10); a container (24) for compacted material with an opening (42) and an interconnector (32) with a bearing (20); a compactor loader (15) at a collection point (12); and an unloader (77) at a distribution point (75); and a trailer (80) with a conveyor (97).

Claim Rejections - 35 USC § 103

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. Claims 9-11 and 17-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pioch in view of Mackenzie. Pioch discloses all the limitations of the claims, but it does not disclose a hydraulically actuated telescopic ram. However, Mackenzie discloses a similar device that includes a hydraulically actuated telescopic ram (24) for the purpose of ensuring discharge of all of the container's contents (see col. 5, lines 42-45). It would have been obvious for a person of ordinary skill in the art at the time of the applicant's invention to modify Pioch by utilizing a hydraulically actuated telescopic ram, as disclosed by Mackenzie, for the purpose of ensuring discharge of all of the container's contents.

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
